

# Emerging Technology Roadmap, 2016–2017

CEB Infrastructure Leadership Council

## Technologies by Mainstream Adoption Timeline, Value, and Risk

Responses from IT Professionals at 107 Organizations

### Key Themes in This Year's Roadmap

1. Focus on data challenges from digitization
2. Cybersecurity concerns continue to drive investments in advanced capabilities
3. Cloud deployments regain momentum
4. Container technologies challenge hybrid cloud strategies
5. Software-defined infrastructure stalled
6. The “new normal” in employee computing has stabilized—for now.
